GPA Calculation

Calculate the cumulative high school GPA by converting line-by-line all grades listed on the student's final high school academic records/transcripts for all three or four years of secondary education to US equivalents and convert to quality points. Divide the quality points by the total number of courses attempted.

Grading Scale (may not be all inclusive)

Five point scale:

Grade	Translation	Numeric Grade	US Grade	Quality Points	
优秀	Excellent	90-100	A	4	
良好	Good	80-89	B	3	
中等	Average/Fair	70-79	C	2	lowest passing grade
及格	Satisfactory/Pass	60-69	D	1	
不及格 or 差	Fail	0-59	F	0	

Four point scale:

Grade	Translation	Numeric Grade	US Grade	Quality Points	
优秀	Excellent	85-100	A	4	
良好	Good	75-84	B	3	
及格 or 中	Average/Fair	60-74	C	2	lowest passing grade
不及格 or 差	Fail	0-59	D	1	

Class Ranking

Class rank is evaluated based on a letter written and submitted by the headmaster or principal of the institution from which the student graduated. The letter must confirm both the student's final position in the student's secondary school class and the total number of students in the graduating class (e.g. the student is 41st in a total graduating class of 112 students).

Post-Secondary Education

Students will be charged terms of attendance and considered transfer students if they have enrolled as a regular student and attended one or more courses at any of the types of institutions listed below (may not be all inclusive) or any other institution that requires proof of high school graduation as a pre-requisite for admission (subject to review on a case-by-case basis).
